

DO YOU KNOW THE RISKS IN YOUR PRACTICES? WE DO, AND YOU CAN TOO

We have performed hundreds of physician practice assessments, and our three step process will tell you all you need to know to mitigate the risks in **your** practices. Basing proactive risk management initiatives on identified areas of opportunity, instead of past case trends, more accurately predicts and prevents future claims.

TOP 5 CATEGORIES OF FINDINGS

Infection
Prevention

Medication
Safety

Environmental
Safety

Equipment
Safety

Lab
Compliance

“We conduct assessments annually and **use the findings to drive our physician practice performance improvement** for the next year. This outside set of eyes has really allowed us to see where we need to focus and how we can make a difference for our patients. It also gives our office managers the opportunity to ask questions and get feedback in real time on issues identified during the assessment.”

– **RENEE MAYNES, BSN, RN, QUALITY COORDINATOR, PHYSICIAN NETWORK SERVICES AT ANMED HEALTH**

OUR PROCESS

STEP
1

- Self-Assessment by Practice Manager

STEP
2

- Onsite Assessment
- Workflow Observation
